WE PROVIDE CORPORATE CULTURE IN CAMPUS

A Unique Atmosphere
Beyond the Books

We are running two special batches namely SUPER60 and The Uniques. These batches are formed to bring together individuals who are passionate about technology and interested in exploring its vast world.

We build a business home on campus in the form of IT Incubation centre called UNIQUE ZONE. This Incubator is nurturing the students to transform their innovative ideas into practical solutions.

This Incubation also plays a vital role in the development and growth of students' technical skills and prepares them for a career in the technology industry. It provides students with access to state-of-the-art infrastructure, offers a practical approach to learning, encourages collaboration, provides access to mentors, and fosters innovation and entrepreneurship.

At SVIET, we take pride in our membership with the **Google Developer Student Clubs (GDSC) chapter**. Our GDSC - SVIET stands out as the most high-performing chapter in North India. Over the past year, we've organized and executed over 10 impactful events under this banner. These events have not only fostered innovation and learning among our students but have also strengthened our ties with the tech community. Through workshops, seminars, and hands-on sessions, we've empowered our members to explore cutting-edge technologies and develop real-world skills. As a result, our GDSC - SVIET has become a hub of creativity, collaboration, and continuous growth. Join us in this journey of exploration and excellence as we continue to push the boundaries of technological innovation.
